# Patient's Responsibilities

LINK TO ALL INFORMATION

**1**  
*Take full care of your health and follow the doctor's recommendations.*

**2**  
*Timely and punctual attendance to and service appointments. If attendance is not possible, the cancellation and/or postponement must be informed previously.*

**3**  
*Truthfully, clearly and completely report/inform about your health status to the doctor/healthcare professional.*

**4**  
*Care for and rational use of resources and facilities.*

**5**  
*Treat staff with dignity, respect and courtesy.*

**6**  
*Respect both the property of others and the political/religious beliefs of other patients and staff.*

**7**  
*Fulfil the treatments and instructions provided by health personnel for your physical and psychological well-being.*

**8**  
*Comply with the established rules of the institution.*

**9**  
*No smoking in health facilities and their surroundings.*

**10**  
*Contributing to the care of the environment*

**12**  
*Duty of communication. People who know facts, data or circumstances that could constitute a risk or serious danger to the health of the population will make them known to the health authorities.*

**11**  
*Duty of collaboration in public health issues. Citizens will facilitate the development of public health actions and will refrain from conducts that hinders, prevents or falsifies its execution.*
